The time has come to tell the entire story of the creation of The Saint John's Bible. This completely updated and expanded edition of Illuminating the Word devotes a separate chapter to each of the Bible’s seven volumes. Readers get a behind-the-scenes tour of the creation of each volume, with a fascinating window into the activities, challenges, and struggles at Donald Jackson’s Scriptorium in Wales. We can practically watch, through the eyes of every artist and calligrapher who participated in the project, the Bible’s stunning illuminations move from conception to completion. This edition includes a completely new chapter on the scripts used in The Saint John’s Bible that will fascinate calligraphers and lovers of the art. Still another new chapter details the production of the Heritage Edition, a high-quality, fine-art facsimile of the original that makes The Saint John’s Bible available to a wider audience than the singular manuscript.

Christopher Calderhead is a visual artist and graphic designer who has exhibited his letter-based works in the United States and Great Britain. An ordained minister, he has served parishes in the Church of England and the Episcopal Church USA. He is editor of Alphabet, a journal of the lettering arts published by the Friends of Calligraphy, and author of One Hundred Miracles.

In beautiful handwritten script and elegant design, Pentateuch contains the cherished stories of faith that are thousands of years old. This book provides an artistic interpretation of humanity’s oldest literature—still recited as living history.

That these stories are significant to Jewish and Christian traditions is not surprising since they reflect the hopes, dreams, fears, and deeds of people living side by side with the earth’s oldest civilizations.

Psalms

Visual representations of chants from Benedictine, Native American, Muslim, Taoist, and other traditions are the basis for illuminations of the Psalms. The varying pitch of the chants is rendered graphically to provide a motif for the abstract illumination. Every Psalm page features a small, gold graphic rendering of the chanting of the monks from Saint John’s Abbey.

Jackson chose colors to represent different themes and designs to symbolize the different types of Psalms. He devised a way of weaving the two together that resulted in unique script, colors, and shading.

Prophets

Prophets features some of the most beautiful passages in all of Sacred Scripture. The ancient prophets of Israel suffered and celebrated with the people they both admonished and praised. They provided words of consolation during times of oppression and kept the flame of hope alive during the darkest periods of Israelite history. Christians honor the prophets as those who foretold the coming of the Messiah, Jesus Christ, as is evidenced by the many references to the prophets in the New Testament.

The Hermeneutics of The Saint John’s Bible
Michael Patella, OSB

In *Word and Image*, Michael Patella explores the principles, intentions, and aims of *The Saint John’s Bible*—the first handwritten and hand-illuminated Bible commissioned by a Benedictine abbey since the invention of the printing press. Patella focuses not on how it was made but on how it can be read, viewed, and interpreted in a way that respects biblical inspiration and Christian tradition in our postmodern context. It is a book that is sure to appeal to academics, pastors, teachers, and educated laypersons.

The Art of The Saint John’s Bible
The Complete Reader’s Guide
Susan Sink

From the time that pages of *The Saint John’s Bible* began touring in major exhibitions nearly a decade ago, people have been moved, captivated, and inspired by this stunning work of modern sacred art. But they often have questions about the illuminations that are scattered throughout the Bible, especially as they first become familiar with it. Why was a certain Scripture passage chosen for illumination rather than another? What materials and source imagery are behind the illuminations? *The Art of The Saint John’s Bible* provides answers to these important questions and many others.

The Illuminator and a Bible for the 21st Century

The longtime scribe to Her Majesty Queen Elizabeth’s Crown Office used age-old calligraphic techniques to create a modern manuscript: egg yolks, gold, silver, and platinum in the illuminations; goose quills and hand-ground ink on carefully selected calf-skin vellum for the text. Experience for yourself the story of the most extensive scribal commission in the world since the end of the Middle Ages, a story that has not happened for a long time and probably will never happen again.

Giclée (pronounced ZHEE-clay) is the French term for “fine spray.” Precise computer calculations control the process of producing over 500 shades of dense, water-based ink. Great care is taken to prepare and capture each image. Through imaging and print technology, we are able to deliver truly breathtaking output with beautifully smooth and dot-free tones. The final product is a lush, vibrant, and velvety-looking art print, one that has the feel of a watercolor and the clarity of an original painting.

These exquisite fine art Giclée prints can be enjoyed personally or given as a gift. Visit SaintJohnsBible.org to view the entire collection.
